

SUBJECT CARD

Faculty of Medicine and Health Sciences
Medicine

Form of studies: Full-time course

Degree: long-cycle Master's programme

Specializations: No specialization

Rok akademicki: 2022/2023

PRACTICAL CLINICAL TRAINING – SURGERY

SUBJECT NAME	Practical Clinical Training – Surgery
NUMBER OF ECTS POINTS:	8
LANGUAGE OF INSTRUCTION	English
TEACHER(S)	Persons employed in hospitals with which the University has signed contracts
PERSON RESPONSIBLE	dr. hab. Dariusz Plicner, Prof. KAAFm
NUMBER OF HOURS	
INTERNSHIP:	136 h including 16 h of duties
MAIN GOALS	
GOAL1:	Enabling students to apply in practice the previously acquired knowledge in the field of diagnosing the most common surgical diseases and planning appropriate therapy
GOAL2:	Creating conditions for the acquisition and improvement of cognitive skills (interpretation of data, making medical decisions) and practical skills (performing simple diagnostic and therapeutic procedures)
GOAL3:	Implementation of students to work in a team composed of representatives of various medical professions
LEARNING OUTCOMES	
MW1:	Knowledge: The student knows the causes, symptoms, principles of diagnosis and treatment in relation to the most common diseases requiring surgical intervention
MW2:	The student knows the rules of qualifying patients for surgical treatment
MW3:	The student knows the rules of perioperative safety, patient preparation for surgery and postoperative care

PRACTICAL CLINICAL TRAINING – SURGERY

MU1:	Skills: <u>The student</u> conducts a medical interview with an adult patient
MU2:	Performs a complete surgical examination including: examination of the abdominal cavity in the aspect of acute abdomen, examination of the lymphatic nodes, the breast, the thyroid gland and performs a digital rectal examination through the anus
MU3:	Performs a differential diagnostics of the most frequent diseases of surgical patients
MU4:	Complies with the principles of asepsis and antiseptics
MU5:	Demonstrates a proper technique of scrubbing himself before the surgical intervention , putting surgical clothes and gloves in compliance with aseptic principles
MU6:	Prepares the operational field and applies local anesthesia to the operated area
MU7:	Can make use of the basic surgical tools
MU.8:	Assists in standard surgical interventions
MU.9:	Applies and changes sterile surgical dressing
MU.10:	Performs suturing of simple wound and takes care of external bleeding
MU.11:	When possible provides care of vascular access port and intraperitoneal port
MU.12:	When possible collects arterial and arterialized capillary blood
MU.13:	When possible performs incision and drainage of an abscess as well as excision of tumor from skin and mucus membranes
MU.14:	When possible performs exploration of the stomach, gastric lavage and enema
MU.15:	Performs catheterization of women’s and men’s urinary bladder

PRACTICAL CLINICAL TRAINING – SURGERY

MU.16:	When possible assists in thin and thick needle biopsy as well as in excision of the lymphatic node
MU.17:	When possible assists in puncture and drainage of the pleural cavity, the pericardium, and the peritoneal cavity
MU.18:	When possible applies a proper care and management in typical complications of colostomy, urostomy, ileostomy and gastrostomy
MU.19:	Interprets the results of the imaging scan (TRG, TK, MRI) and laboratory tests
MU.20:	Depending on situation identifies patient`agony and certifies death
MU.21:	Keeps patient`s medical record
MK.1	Social competencies: <u>The student</u> demonstrates care for patients
MK.2	Reveals responsibility for assigned tasks and awareness of the own limits
MK.3	Can cooperate with other members of the health care team

INTRODUCTORY REQUIREMENTS

	Possession of basic knowledge in the field of surgery, confirmed by exams in subjects covering clinical issues in this area. Ability to perform a medical interview and physical examination of adults, with particular emphasis on surgical examination.
--	--

COURSE PROGRAM

DESCRIPTION

Internship	Participation in a daily medical visit, Interviewing and examining the patients, Participation in the diagnostic and therapeutic process Performing minor procedures, assistance in the operating theater Keeping medical records
Duty hours	Accompanying the doctor on duty, examining patients, participating in the diagnostic and therapeutic process, Performing minor procedures, assistance in the operating theater .

DIDACTIC METHODS (APPLIED)

DESCRIPTION

	Working with patients in the ward and/or emergency room. Assistance in the operating theater
--	---

PRACTICAL CLINICAL TRAINING – SURGERY

STUDENTS WORKLOAD:	
CONTACT HOURS WITH THE TEACHER	136 h
HOURS WITHOUT THE PARTICIPATION OF THE TEACHER	Preparation for classes: 20 h Preparation for the exam: 80 h
TOTAL NUMBER OF HOURS FOR THE COURSE	236 h
CONDITIONS FOR COURSE COMPLETION	
	<p>The student is obliged to follow every day clinical duties, to implement the didactic plan recorded in the Student Diary of Clinical Training, practice the practical skills listed therein and diligently perform the tasks assigned to him. The student records the activities performed in the Diary, and the acquired skills are confirmed by the signature of the supervisor.</p> <p>The student is expected to demonstrate a proper attitude towards patients and their relatives, as well as proper cooperation with other members of the therapeutic team.</p> <p>Completion of the internship is confirmed by the direct supervisor's signature. The final credit is made by the person responsible for the course.</p>
METHODS OF ASSESMENT:	
IN TERMS OF KNOWLEDGE:	The student's knowledge is checked on an ongoing basis during discussions with the direct supervisor of the practice
IN TERMS OF SKILLS:	Prolonged observation by the supervisor. OSCE exam at the end of the year.
IN TERMS OF SOCIAL COMPETENCE:	As above
FORMATIVE:	N.A.

PRACTICAL CLINICAL TRAINING – SURGERY

SUMMATIVE (I & II)

Assessment of knowledge including specialties covered by the Practical Clinical Training is carried out through two consecutive theoretical exams: an MCQ exam and an oral exam.

The MCQ exam consists of 150 questions with 4 answer options, and one correct answer and covers the basics of all mandatory specialties included in Practical Clinical Training. The passing level is set at 55% of correct answers.

The oral exam consists of 5 questions and includes case studies in the field of internal medicine, pediatrics, surgery and gynecology with obstetrics. Answers to questions are scored on a scale of 0-3. The condition for passing the oral exam is obtaining at least 8 points.

The summative assessment of practical skills has a form of Objective Structured Clinical Exam, which consists of 10 stations, including two with double tasks. Each of the stations is assessed according to its own criteria, and passing the entire exam requires passing of at least 8 stations, with the absolute requirement to pass the station testing skills in ALS.

GRADING SCALE

This is a pass course without a grade

BASIC LITERATURE

As indicated in the Subject Cards for Introduction into clinical medicine and Surgery

SUPPLEMENTARY LITERATURE
